GENERAL ELECTRIC...

GE helps you solve the tough ones with the broadest line of electronic comp

General Electric has the broadest line of electronic components in the industry. From the tiniest integrated circuits to powerful high performance motors, GE components help you solve your tough problems . . . in design, in performance, in economy.

And GE has nationwide fully-staffed sales offices to give you trained buying and application assistance when you need it.

Let GE help solve your problems. Call your nearest Electronic Components Sales Office (listed at right). Or check with one of the many authorized GE distributors.

P.S. Problems? General Electric has solutions.

HOW TO USE eem

1 GREEN PAGES

2 WHITE PAGES

3 YELLOW PAGES
4

5 PINK PAGES

1 To Find MANUFACTURERS OF A SPECIFIC PRODUCT

GREEN PAGES

Look in the green pages (Product Index and Directory) for the alphabetical listing of products. Similar products are grouped together. For example, the many kinds of meters are listed in this manner: "Meters, Ampere," "Meters, Capacitance," "Meters, Flux," etc.

To help you locate the prime product heading, there are hundreds of cross references — (e.g. "Voltmeters — See Meters, Volt").

If you can't locate a specific product, look under the broadest definition: "Connectors, —" "Wire, —" "Indicators, —." If you still can't locate it, you may contact the Editorial Department, United Technical Publications, Inc., 645 Stewart Ave., Garden City, N.Y. 11530. Phone: (516) 248-9700.

The **boldface** listings under the product headings indicate the manufacturer has other products cataloged in **eem. Boldface** listings with page numbers refer you to specific and detailed product information in the white pages indicated.

2 To Find MANUFACTURERS' CATALOG INFORMATION

WHITE PAGES

The manufacturers' catalog pages in **eem** (white pages) are grouped in three distinct volumes: **(Vol. 1)** Test Instruments and Equipment and Systems, **(Vol. 2)** Active Components/Circuit Assemblies/Controls and Drives, **(Vol. 3)** Passive Components/Materials/Hardware. The 54 **eem** Product Sections, providing more definite breakdown of product categories, have been assigned individually to the appropriate volumes. Within each of the 54 Product Sections, manufacturers are arranged alphabetically wherever possible. To locate the catalog pages of a specific manufacturer, refer to page 1 or page 501.

Index of Manufacturers' Catalogs .....Pages 1 and 501
The 54 **eem** Product Sections in 3 volumes .....Pages 5 and 500

3 To Find MANUFACTURERS' ADDRESSES, PHONES AND SALES OFFICES

YELLOW PAGES

More than 6000 manufacturers of electronic components, materials, instruments, assemblies, systems, and some key services are listed in the yellow pages of Volume 1. These listings include addresses, phone numbers, and sales managers. If the manufacturer has TWX and Federal Supply Code numbers, these are also listed. **Boldface** names indicate that detailed information on the manufacturers' products appears in the **eem** white pages.

4 To Find TRADE NAME SOURCES

YELLOW PAGES

Trade Names, with descriptions of the products and names of their manufacturers, are intermixed alphabetically *(in italics)* in the Manufacturers and Sales Offices Directory described above. Thus, you can easily find the name of the manufacturer if you know only the trade name (brand name or trade mark).

5 To Find SALES REPRESENTATIVES

PINK PAGES

More than 2,000 manufacturers' sales representatives are listed alphabetically and geographically. The geographical listings include addresses, phone numbers, branch offices, lines represented, markets served, facilities and number of salesmen, including those with engineering degrees.

54 PRODUCT SECTIONS IN 3 VOLUMES

eem—Electronic Engineers Master saves you engineering, specifying and purchasing time. Manufacturers' catalogs are grouped under easy-to-remember headings.

The 54 Product Sections categorize related electronic components, equipment, materials, instruments and systems, and fabrication services, enabling you to quickly compare and evaluate similar items.

To pinpoint or locate specific products within any catalog page, always refer to the Product Index (Green Pages).

Vol. 1 TEST INSTRUMENTS EQUIPMENT & SYSTEMS

Vol. 2 ACTIVE COMPONENTS/CIRCUIT ASSEMBLIES/CONTROLS & DRIVES

Vol. 3 PASSIVE COMPONENTS MATERIALS/HARDWARE

These are the 54 eem Product Sections grouped in 3 volumes

Product Section	Volume Number	Products
1100	2	Amplifiers, Audio, Operational, etc.
1200	1	Antennas & Accessories
1300	1	Audio Equipment & Accessories
1400	3	Cabinets, Chassis, Containers, Racks, Boxes, etc.
1500	3	Capacitors (All Types)
1600	3	Chemicals (Acids, Adhesives, Coatings, Lubricants, etc.)
1700	2	Circuit Assemblies, Circuit Boards & Breadboarding Kits
1800	3	Coils (Inductors, Chokes), Assemblies, Forms
1900	1	Communications Equipment (Facsimile, Telephone, Television)
2000	1	Computing, Data Handling Equipment & Accessories
2100	3	Connectors, Electrical (Receptacles, Sockets, Terminal Boards)
2200	2	Controls, Control Components & Systems
2300	2	Crystals, Tuning Forks & Resonant Reed Devices
2350	3	Delay Lines (All Types)
2400	2	Panel Components (Incl. Lighting & Readouts)
2500	3	Fabricated Mechanical Parts (Bearings, Cores, Magnets, etc.)
2550	1	Environmental Test Equipment
2600	3	Fans, Blowers & Cooling Equipment
2700	2	Filters
2800	3	Hardware, Non-Current Carrying (Fasteners, Washers, etc.)
2900	1	Instruments, Measuring & Test
3000	1	Instruments, Graphic Recording
3100	3	Insulators, Insulating Materials & Parts
3130	2	Integrated Circuits & Hybrid Microcircuits
3150	3	Manufacturing, Subcontracting, Custom Fabrication
3200	3	Materials, Raw (Metals, Plastics, Glass, Rubber, Cloth, etc.)
3300	1	Medical Electronic Equipment
3400	1	Microwave, Radar Equipment, Components & Accessories
3500	2	Motors, Rotating Components & Accessories
3600	1	Nuclear & Radiation Equipment
3700	2	Photoelectric Equipment & Components
3800	2	Optical Equipment & Accessories PHOTO
4000	1	Power Supplies, Converters, Inverters, Batteries, etc.
4100	1	Production Machinery & Automation Equipment
4200	3	Engineering Aids (Books, Drafting Equipment, Whiteprinters)
4300	1	Recording Equipment (Non-Audio Types)
4500	2	Relays
4600	3	Research, Development, Engineering Services
4700	3	Resistors, Fixed
4750	3	Resistors, Variable (Potentiometers & Rheostats)
4800	2	Semiconductors & Devices, Rectifiers (Non-Tube Types)
4900	2	Servomechanisms & Components
5000	1	Studio Equipment
5100	2	Switches, Circuit Breakers, Fuses, Protective Devices
5200	1	Telemetering Equipment
5300	2	Thermal Devices, Thermistors, Thermocouples, Thermostats, etc.
5400	3	Tools (Hand & Power); Soldering Supplies
5500	2	Transducers & Associated Equipment
5600	3	Transformers
5700	2	Tubes, Tube Parts, Shields, Inserts, etc.

eem 1970 1971

electronic engineers master

This 1970-71 edition of **eem — Electronic Engineers Master** is the thirteenth and largest volume published to date. You will find included more catalog data than ever before, systematically presented for the first time in **three distinct volumes:**

Vol. 1 — Test Instruments, Equipment & Systems

Vol. 2 — Active Components/Circuit Assemblies/Controls & Drives

Vol. 3 — Passive Components/Materials/Hardware

The 54 **eem** product sections (see page 5) have been individually assigned to the appropriate volume. A listing of the product sections precedes each volume on pages 505, 1317 and 2145.

United Technical Publications' Time-Saving Product-Information System

We have drawn upon the experience of hundreds of engineers and purchasing agents to develop a time-saving product/information system. It includes these major elements:

1 **eem — Electronic Engineers Master** — this bound catalog file for the complete product data of many hundreds of manufacturers. The **Catalog Section** (white pages) is divided into Three Volumes, with a total of 54 product sections, to simplify and speed the comparison and evaluation of similar products. An industry-wide **Product Directory** (green pages) plus a verified **Directory of Manufacturers and Trade Names** (yellow pages) place the products and sales offices of more than 6,300 manufacturers at the fingertips of the user.

2 **electronic products,** the electronic industry's only major magazine devoted 100% to products, product applications and product selection, keeps engineers and purchasing agents up-to-date on all phases of products.

NOTE: Prices are furnished for information only — they are not offered as quotations. Participating manufacturers reserve the right to change specifications, revise prices or discontinue items without notice. While every precaution has been taken to assure accuracy in content, the publisher cannot be responsible for manufacturers' claims and representations; nor can any guarantee be made against the possibility of error or omission.

Circulation Policy

eem — Electronic Engineers Master is distributed annually at no charge to qualified engineers and purchasing agents, affiliated with North American manufacturers, research laboratories and government agencies. To qualify for a subscription you must be actively engaged in application, selection, specification, design or procurement of electronic components, materials, equipment and related fabrication services.

Official subscription form may be obtained by submitting the following on your company's letterhead: (1) name and title, (2) job function and duties, (3) main products manufactured or developed by your company, division or laboratory. Please include building number or mail station with address. Letters must be signed personally. Group qualification is not acceptable. The cost of **eem** to nonqualified personnel is $20.00 per copy.

No portion of this book may be reproduced without express permission of the publishers. Library of Congress Catalog Card Number 58-9813.

PRODUCT INDEX AND DIRECTORY

The Product Index & Directory contains over 3200 product headings and cross references. Manufacturers of each product are listed alphabetically in two groups under each heading. The first group **(bold face)** are those manufacturers whose catalog pages appear in the white section. Catalog page numbers are shown only when information on the specific product is included in the white section.
